ADVANCED INDUSTRIAL SERVICES PRESCRIPTION SAFETY EYEWEAR PROGRAM

At A.I.S. we care about your safety. If you wear prescription glasses, it is important for you to have the correct prescription in your safety glasses as well. A.I.S. is partnered with Walman Optical to provide our employees with a Prescription Safety Eyewear Program.

A.I.S. will give employees up to a \$100 allowance toward prescription safety eyewear every two years.

To obtain your prescription safety eyewear, follow the instructions listed below:

1. Get a copy of your current eyeglass prescription from your current eye doctor. If you do not have a current prescription, have your eyes examined by your eye doctor, **OR** you may use one of the locations in the program if you do not currently have an eye doctor. You must contact the location to confirm that they perform eye exams and if an appointment is required.
2. Contact the Safety Department or print the Authorization/Order Form from the AIS website. You **MUST** take this form with you when you order your prescription eyewear, otherwise you will **NOT** be eligible for coverage under the A.I.S. Prescription Safety Eyewear Program.
3. Take this form and your prescription to one of the locations that participate with Walman Optical (see attached list of all locations in Pennsylvania).
4. The eye care professional will assist you in selecting a safety frame, take the appropriate measurements, and order the safety eyewear.
5. When the eyewear is complete, you will be notified and arrangements will be made to pick up the eyewear.

IMPORTANT FACTS ABOUT THE PRESCRIPTION SAFETY EYEWEAR PROGRAM:

- The eye examination is your responsibility and is not a part of this program. Check with your Vision Insurance regarding coverage. If you have insurance through A.I.S., the Vision Insurance coverage is through National Vision Administrators. Check the N.V.A. website for a full list of participating providers.
- A.I.S. will pay up to \$100.00 (directly to Walman Optical) for prescription lenses in an authorized safety frame with polycarbonate or plastic lenses and permanent side shields. If you choose to have a deluxe safety frame, you must pay the difference in the price at the time of your order.
- Tinting will not be authorized.
- Polycarbonate or plastic lenses only are required.
- Permanent side shields are required.

If you have any questions regarding the A.I.S. Prescription Safety Eyewear Program, please contact the Safety Department.

Your Contractor Of Choice For: Equipment Installations • Relocations • Maintenance • Remanufacturing

Millwrighting • Rigging • Optical Alignment • Process Piping • Electrical • Transportation
